S-Difference is equal to the actual S-Curve ranking minus the expected S-Curve ranking.  
Expected S-Curve ranking is equal to average ranking excluding the MINIMUM and MAXIMUM ranking amongst the six computer ranking systems.

Teams with a positive S-Diff were placed on the S-Curve below in a worse than expected place, while teams with a negative S-Diff were placed in a better than expected S-Curve position.

### NOTES FROM 2021 NCAA TOURNAMENT

In the 2021 NCAA Tournament, West Virginia (-10) and Oklahoma State (-9) were the only two teams spotted 8 or more spots too high from their expected S-Curve position. Each won 1st round games, before losing in 2nd round.

# Conference Tiers

Using the adjusted efficiency margin established for each conference an average value was established. After which, six conference tiers were established for each season using methodology that compares the conference's metrics against an adjusted average using the standard deviation found from the yearly numbers.
